

## The Hong Kong School Drama Festival

This year, 20 students took part in the Hong Kong School Drama Festival. The team did not participate only in acting, but also props making, making light and sound effects, makeup and costumes arrangements. The participating students were shining like the stars on the stage, but much more went on behind the scenes. With the collaborative work of all the students who were in charge of the props, light and sound effects, makeup and costumes, the script of this year's play, the Future RULER, were presented at its best on the stage.

All the participating students are doing their best to perform on the stage.

All the actors and actresses are taking a group photo with the teacher and the adjudicators.

Two adjudicators, the teachers and the students are enjoying the drama.
