

# English Fun Day

Our English Fun Day was in March this year. The topic of this year is about the vocabulary in the V-Power. We were glad to have the NETs from other Lutheran Primary Schools to come and help on that day. Students had ample opportunities to communicate with them in English and had a lot of fun at the game booths. All the students redeemed one or more presents at the prize redemption counter with their stamp cards.

The NETs design the games and they come to our school to play with our students.

Look at our CEOs. They help the NETs to run the game booths. Hats off to our CEOs!
